

The history of **United Electric** spans seven decades of excellence, which began in 1948 in Levittown, New York post World War II. It has been family run and owned since 1954. Our original location was the East Village Green in Levittown (until 1974). Our newest location is a 7,000 square foot building that is located at **35 Urban Avenue in Westbury, NY.**

Genmar Electric was formed in 1990 to provide service to clientele in New York City and the outlying boroughs. Although its history is not as deep as United's, it exemplifies the same commitment to excellence as its sister company.

About United Electric

United Electric is a fully licensed and bonded company having a fully equipped staff with over fifty years of experience. United Electric serves Nassau & Suffolk counties. United's rich history dates as far back as the 1940's and has been thriving ever since then.

About Genmar Electric

Genmar Electric serves New York City and the five boroughs. From initial planning and developing to a successful completion, our company takes a personal interest in every last detail. Being United Electric's sister company, Genmar offers the same level of quality.

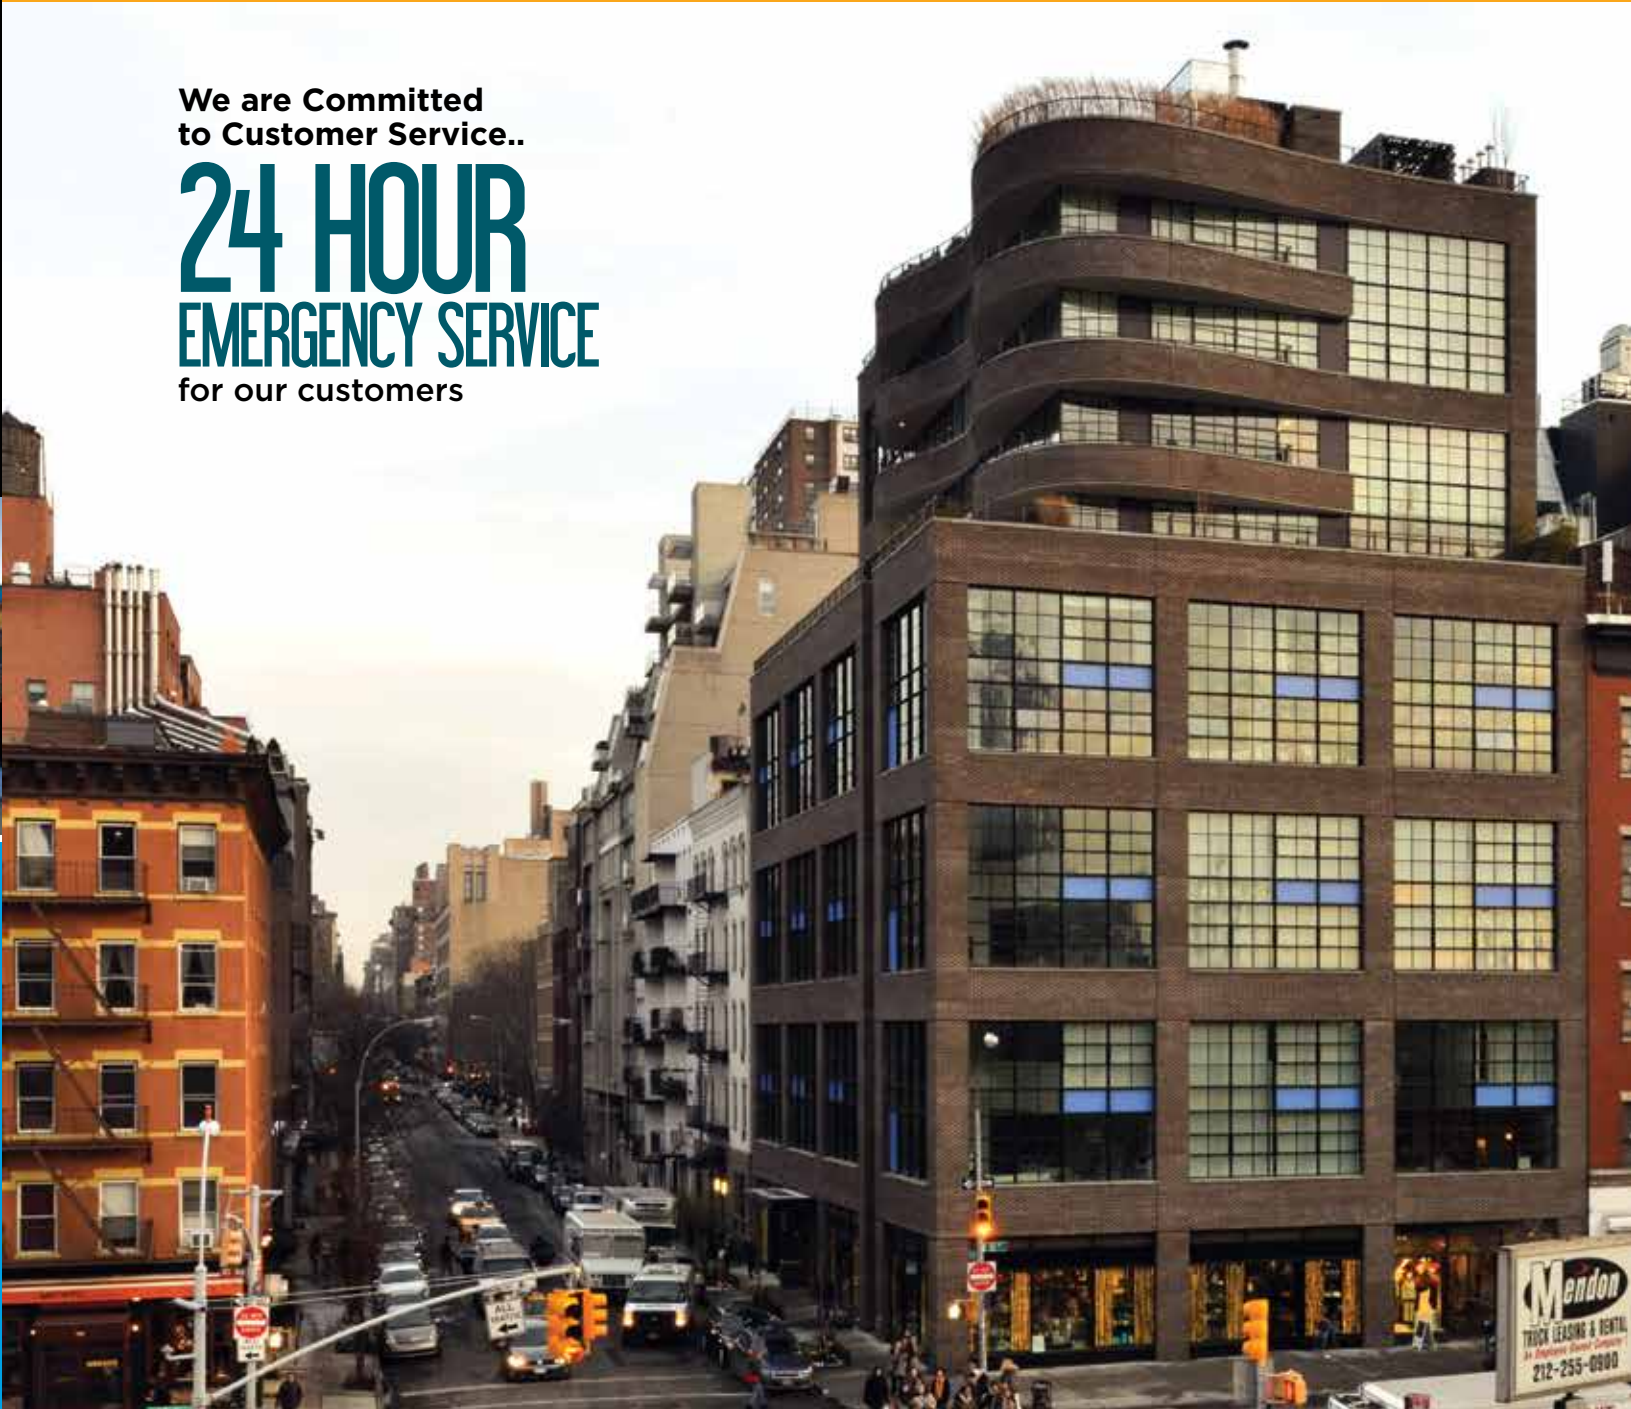

Services

United Genmar helps its customers to power and network their facilities with speed, intelligence and efficiency in commercial, industrial and high end residential projects. Our skilled professionals will design and engineer your project according to your specific requirements.
